

Inside the Anti-Abortion Movement

A Behind-the-Scenes Look at the National Right to Life Convention

Thursday, July 19th, 6:30 PM

Women's reproductive freedom is under attack!
Did you know that...

- **Three** current presidential candidates attended the NRL Convention?
- Upcoming anti-choice strategies will paint **men as victims** of abortion?
- Legislation is underway to **force** women seeking an abortion to get a sonogram?

At the recent National Right to Life convention in Kansas City, author and reporter Eleanor Bader was taking notes and keeping quiet. On July 19th, she will speak out and take us inside the National Right to Life Committee, revealing the strategies unveiled at their recent convention held in the wake of the *Gonzales v. Carhart* decision. Join NOW-NYC for the inside track on how the anti-choice movement is chipping away our reproductive rights and what we can do about it.
