

# UNDECIDED ABOUT HILLARY? WHAT'S AT STAKE?

**Hillary is making history as the nation's first woman who is a serious candidate for President, but will she win the primary election and the national election?**

**How important is the women's vote?**

**How important is New York in the primary race?**

Whether you are undecided or not, join with feminists and New York leaders in a stimulating discussion about what this election means for women and the country.

With press coverage dominated by the race rather than the issues, hear from distinguished panelists about the real policy distinctions between Hillary & Barack. The NYS February presidential primary is approaching!
