Here is a sampling of people who have endorsed Mark Green for Public Advocate of NYC with statements:

Bobby Kennedy

Environmental Law Attorney

"My Uncle Teddy finally felt that, after the death of his brothers, the election of Barack Obama was the fulfillment of his life. That he had fought. That America had ultimately come around. And there is one other guy who has been there that long, with him, and that's Mark Green.

The post that he running for is the conscience of the City. It is the post that is supposed to remind all of us how democracy is supposed to function, how the little guy should have as much power as the big powerful wealthy voices. There is nobody who understands it better than Mark. "

Gloria Steinem

Feminist Icon and Activist

"Mark Green's record of real progressive reform and his successful fights for women in particular - helping domestic violence victims in the workplace, changing divorce laws, stopping discriminatory pricing based on gender - show the kind of outspoken Public Advocate he was and should be again."

National Organization for Women - New York City Chapter

"NOW-NYC is proud to endorse Mark Green, who clearly stands out as the candidate with the most skills, accomplishments and vision. New York City needs a Public Advocate who understands the struggles women in our city face on a daily basis. Mark Green is that person."
